

# Washdown Motors

- Top quality, dependable motors
- Finally! A washdown duty motor that lasts

## Reliable Performance in *Any* Environment

- Food processing & manufacturing
- Pharmaceutical & medical device manufacturing
- Marine industry
- Bottling
- Auto & vehicle washing equipment
- Beverage industry

# HYDROWASH

## Performance and Specifications

- ½ HP – 2 HP
- 1750 rpm

Oil and water resistant breather vent—Utilizing oleophobic and hydrophobic technology. Allows pressure stabilization and prevents moisture ingress.

Vacuum pressure impregnated windings

Corrosion resistant White Epoxy paint application—Withstands ASTM extreme spray tests for a long lasting finish

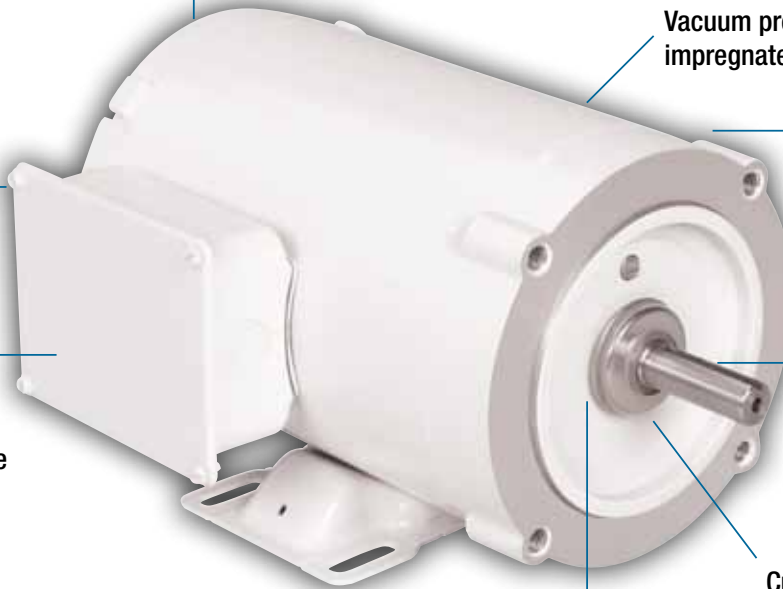

Stainless steel high pressure external shaft slinger

Custom internal lip seals

Double sealed ball bearings

Waterproof proprietary lead splice kit

Potted and Welded Conduit Box—Provides custom designed, secure box with moisture management system

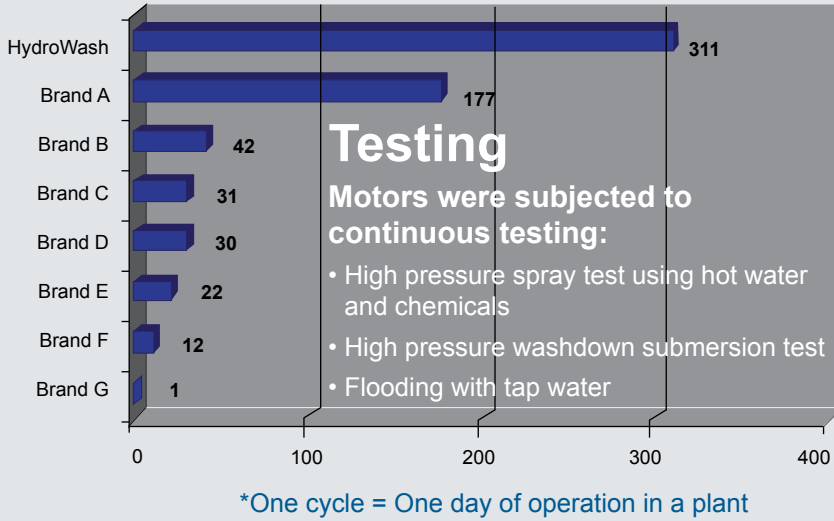

# Torture Chamber Test Results

Our engineers compared the performance for 7 non-encapsulated motors to HydroWash

Number of Test Cycles\* before Failure

# HYDROWASH

lasts the longest  
**75% more cycles**  
than the closest competitor!
